

## HIGH PERFORMANCE VpCI® PACKAGING

# Cor-Pak® Pipe Strip

### DESCRIPTION

Cor-Pak® Pipe Strip is designed for protection of tubes, pipes or conduits in storage or during shipping. Using VpCI® technology, Cor-Pak® Pipe Strip makes it possible to protect the interior of a tube or pipe against corrosion without expensive internal coatings. The flexible strip has a 1/3 inch diameter (8.5 mm). It is extruded from low density polyethylene containing a proprietary VpCI® compound designed for protection of ferrous and non-ferrous metals and alloys. It is especially effective on more expensive stainless steel and aluminum pipes.

### BENEFITS

- Simple and safe to use
- VpCI® vapor will not interfere with subsequent processing (i.e., painting, welding) and will not change water chemistry during start-up of tubular systems
- Meets requirements for low halogens, heavy metal and sulfur content by the Nuclear Regulatory Agency

### METHOD OF APPLICATION

Cor-Pak® Pipe Strip is placed inside the tube or pipe, which is then capped or sealed. The length of Pipe Strip should equal the length of pipe. Within hours, the vapors from the Pipe Strip saturate the enclosed air space. Even in the presence of water vapor (high humidity conditions), the VpCI® vapors passivate the metal surface, thus arresting the process of corrosion.

### TYPICAL PROPERTIES

<b>Feet per reel</b>	500
<b>Meters per reel</b>	152 m
<b>Rod Diameter</b>	1/3 inch (8.5 mm)
<b>Life Span</b>	2 years
<b>Shelf Life</b>	3 years

### LIMITATIONS

Cor-Pak® Pipe Strip is recommended only for pipe diameters up to 6 inches (15.2 cm). For pipes with inside diameters greater than 6 inches (15.2 cm), Cortec® VpCI® powders (VpCI®-307, VpCI®-309, and VpCI®-609) or VpCI-150/VpCI-170 Tapes are recommended. Consult Cortec® for further options.

### METALS PROTECTED

- Carbon Steel
- Aluminum
- Copper
- Brass
- Stainless Steel

### PACKAGING AND STORAGE

Cor-Pak® Pipe Strip comes in standard 500 feet (152 m) rolls.
